

## SARASOTA COLLABORATIVE FAMILY LAW PROFESSIONALS

Our professionals are experts in the collaborative process. Collaborative law allows all parties and respective attorneys to work together to reach an efficient, fair, comprehensive settlement of all issues in a non-adversarial manner.

The Collaborative Process utilizes informal discussions and conferences, and a pledge by the Collaborative Team to quickly and efficiently resolve all issues out of court and without litigation. Trained professionals act collaboratively as problem solvers, not adversaries.

Families are choosing to divorce in peace. Collaborative divorce helps couples create a customized plan where everyone has a voice and the process is handled out of court.
